The compiler made the report of what the PACE file contains in the present writing in a general way. The compiler being an amateur genealogist and not being familiar with proper terminology makes the following definitions. A complete single line is from the Emigrant ancestor to the living ancestor with only the listing of each parent in each generation. Completed family lines are in two sections: Colonial days and Revolutionary days down. The line to be completed must be from the revolutionary ancestor and his children and their children down to about 1900 where the various state has birth registrations required. Group records to be completed must be where there are more than one issue of a revolutionary ancestor.

The compiler has printed a lineage chart to be used as a basis for discussion as to the correctness and incorrectness. We wish to develop the different branch from each issue as of each generation down to the War of 1776. From this period we will take family charts or group charts. Where varying from this the date of beginning will be used to determine the starting point.

The field containing from Richard Pace & Elizabeth Cain and their descendents down is nearly 60 percent completed. The remainder is lacking, except the possibility of getting the descendent of one son's records. The largest gaps are in the four daughters. The Drury Pace line is 90 percent completed. This line is proven back to Jamestown for all society regulations as to the compiler's understanding. The James Pace line is the third generation and is completed down to a single line and issued listed (unproven) of each step to the early 1700's. In the fourth generation of published lists is several single lines and one completed female line in this generation. Also one female line from Thomas Pace issue down. A Stephen Pace line is a good start to what step in the generation chart is not too well known. A Burl Pace record is recorded but not too well as the skip is too wide in the late 1600's and 1700's. It is accepted by most from mid 1700 down but sketchy. The fourth generation in this immigration is thought to start in this generation if this line will be completed all the way. It is correct and complete from James and William Pace, early 1800's, down to the present. There is also a lot on the Thomas and Nathaniel Paces of this generation.

The files are in good shape on the Henry County, Virginia group starting in 1745. There are four brothers, three migrated to Kentucky and west and one brother completes the second. The fourth brother stayed in Virginia, is in excellent shape and should be 100 percent in the second marriage. The children of the first marriage went west and it is shaping up in good condition and should be near completion as wills and bible records are numerous and can be connected with some effort in the right places.
